

# VELOS

Velos stands out on any casino floor with its 32" optically bonded high-resolution display, delivering crystal clear visuals and a more immersive player experience. Its optimised user interface offers seamless and intuitive gameplay while ergonomic enhancements boost comfort and time on device. Blending striking design with performance-driven features, Velos keeps players engaged and operators satisfied.

## Features:

### Bigger and Bolder 32" Display

The expansive 32" 1440p optically bonded display delivers exceptional visual clarity.

### Optimised User Interface

The newly optimised interface is designed for a larger display, delivering more intuitive, seamless gameplay.

### Streamlined, Ergonomic Design

Sleek and ergonomically designed, the cabinet maximises player comfort and encourages longer play.

### Cost effective Compatibility

Fully compatible with Sabre Hydra installations, making upgrades seamless and affordable.
